Examiner, Art Unit 2624

Reasons for Allowance

1. Claims 1, 4, 6, 8, 11, 12, and 14-20 (renumbered 1-13) are allowed.

The following is an examiner's statement of reasons for allowance: amendments filed 3/6/2009 overcome the previously outstanding rejections as set forth in the previous Office Action (mailed 12/9/2008). Accordingly, no outstanding rejections or objections remain.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Statement Regarding 35 U.S.C. § 101 and In re Bilski

2. Each of claims 1, 4, 6, 8, 11, 12, and 14-18 (renumbered 1-11) is a process claim and has been analyzed in light of the "machine or transformation" test elucidated in In re Bilski. Claims 1, 4, 6, 8, 11, 12, and 14-18 are found to comply with the machine prong of the "machine or transformation" test. Independent claim 1 requires sharpness enhancement of an input comprising the steps of detecting first and second subsets of edges, and subsequently processing the detected edges by filtering the edges using at least high-pass and band-pass filtering. The above-noted detecting and filtering steps, which are critical to the inventive concept, cannot reasonably be performed manually and so necessarily require the use of a particular machine (e.g. a image processor and image filtering hardware). Therefore, claims 1, 4, 6, 8, 11, 12, and 14-18 are found to comply with the machine prong of the "machine or transformation" test.
